# CURRENCY AND PAYMENT

The local currency is the Maldivian rupees.

Bank rate \$1 = MVR 15.42

€1 = MVR 16.19

The dollar here is worth more than the euro, so I recommend bringing dollars.

The exchange rate you can get outside of exchange offices and banks starts

\$1 = MVR 17.00

You can also exchange dollars at the rate of USD1 = MVR18 in our shop on Ukulhas Island.

You can pay by card in our shop, but we charge 4% additional fee.

Be careful with old banknotes, they are usually not accepted here. \$2 banknotes are invalid.

\$100 bills, preferably blue with a prominent stripe. If you have green ones, only take ones in good condition, no older than 1996.

Always make sure that the banknotes you exchange are in good condition, without damage.

# BOAT

## TEN-SEATER BOAT WITH PARTIAL SHIELDING

We hire this type of boat for our excursions. For shorter distance trips from Ukulhas is comfortable and sufficient. Easily climbs out of it and climbs back in again. We usually not take more then 8 people on board. As you can see this boat only has partial shielding. With this boat we Alšova do Whale Shark trip and transfers between islands on Ari Atol.
